Ppsst... There is something you should know if you are one of my NLP Coach colleagues...

There is an evolution to **Classic Code NLP...**

Yup, you heard me right!

You see, Classic Code NLP was invented over 40 years ago...

A lot has happened since then...

Yet, most NLP coaches are still using the same old techniques everyone else is using.

This leads you to a situation where NLP coaches:

- ⊖ Can't create more impact in the world, which means less possibilities to change lives.
- ⊖ Can't TRULY help clients with their modern-day needs, which means clients are less satisfied.
- ⊖ Can't stand out among ever-increasing competition, which means competing on price.

Of course, this is far from being optimal for you and your business.

These new times require leaders and agents of change that can bring innovative solutions to the world.

But in order to create and spearhead this change, NLP coaches must get rid of obsolete techniques that are hindering progress...

Hey, I'm Shirley Solis, CEO of **New Code Experience**.

Over the last few years, I've been looking for ways on how coaches can create a bigger impact in the world.

And after much time studying the best resources in the field, I hit gold! 🏆

What is New Code NLP?

It's the most advanced transformation technology on our planet.

A technology that will help NLP coaches create impact at a scale like no other by focusing on the state, instead of the behavior...

John Grinder calls it "the Ferrari of NLP." It's that FAST and that GOOD.

This is a huge change of paradigms!

And I just couldn't keep this discovery to myself!

That's why I've created an amazing FREE course that will get you access to:

- ✔ The most advanced human evolution and transformation technology on our planet.
 - ✔ The new skills you need to be the Catalyst who is ready for this new era
 - ✔ The new and unique differentiator for your coaching career to set you apart as the leader this world needs!
